Kevin,

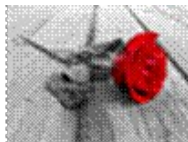

Could you help me figure out how and to who we should make this request and/or if we even can? Normally, we would cite the agreement section that states who the Support Agency Project Manager should be. However, the June 2012 UAO, does not have that section.

It is cumbersome to have the documents go to Bruce, but as we are working under cooperative agreements instead of a site specific order I think I need some directions. I look forward to your response. dt

Hí Doug,
Can I send out this letter, or fax it?
Not a priority.
Thanks,

Sherry
